WORKS CARRIED OUT AT DMRC HEADLEY COURT - BUD

I am writing to you with regard to a member of your staff who is working within DMRC Headley Court at the present time. I apologise for not knowing his surname, I only know him as Bud.

Bud is an outstanding person who has shown on numerous occasions his ability and forethought in dealing brilliantly with situations that arise. He has taken on tasks to ensure the safety of staff and patients alike at this establishment with an abundance of professionalism.

A specific example was Monday this week when I contacted Pride with a Health & Safety issue. We met at the location and Bud informed us that he would make it safe and then get the problem fixed at the weekend if staff were available.

This was no good for Bud and by 09:00 on Tuesday morning all the materials had been sourced and the job completed.

This is just one of many times Bud has gone out of his way to ensure a good job has been completed in a very efficient way and I thought that you should be made aware of the tremendous work and effort he is putting in here at DMRC.

Please pass this on to Bud and his staff and inform him that if he needs anything please do not hesitate to pop in and see me.

Yours

Andrew Veale
C2 SHEF Officer
